

MRc5 Regional Materials

Manufacturer's Compliance Map

This map is representative of a product

- manufactured in St. Louis, MO
- 50% raw materials from Indianapolis, IN
- 20% raw materials from Knoxville, TN
- 30% beyond 500 miles from St. Louis, MO

A LEED-NC project in Chicago could use 70% of the product value toward earning MRc5.1 and MRc5.2.

A LEED-CI project in Oklahoma City could use 100% of the product value toward earning MRc5.1, but none toward MRc5.2. If it were a LEED-NC project, none could be considered compliant.
